## SUMMARY

Computer Engineering graduate with hands-on experience in enterprise IT infrastructure, Active Directory, Office 365 administration, endpoint setup, and internal user support. Combines IT operations experience with backend development, automation, reporting, and database-backed software project experience.

## EXPERIENCE

### Gen Era Diagnostics

Jun. 2025 – Jul. 2025 | Oct. 2025 – Present

IT Intern

Istanbul, Turkey

- Performed daily IT operations including user account management, endpoint preparation, Office 365 administration, domain joining, and internal support requests.
- Managed user accounts, password resets, group-related tasks, and device operations in **Active Directory** and **Office 365**.
- Handled endpoint setup processes such as OS installation, Office setup, computer configuration, and corporate domain joining.
- Built internal automation workflows using **Robusta RPA** and created **Power BI** views for reporting needs.

### MS Spektral Defense Industry

Aug. 2025 – Sep. 2025

Software Intern

Ankara, Turkey

- Developed a logging and database manager desktop application using **C++/Qt** and **PostgreSQL**.
- Implemented logger message handling features for monitoring system events, debugging, and error tracking.
- Created a basic Python-based server to support lightweight backend communication and testing.

### TNC Group / Europäisches Bildungsinstitut

Mar. 2025 – May 2025

Project Management Intern

Remote

- Worked on case studies related to project life cycles, legal frameworks in IT, and AI-based data strategies.

## PROJECTS

### Track Your Best – Fleet Management and Driver Analytics Platform

- Developed a graduation project focused on fleet management, GPS/IoT-based vehicle tracking, trip analysis, and driver behavior evaluation.
- Designed backend and database workflows using **ASP.NET Web API**, **PostgreSQL**, **Python**, and frontend components for trip, vehicle, and driver analytics.

### Restaurant Reservation System

- Developed a full-stack reservation system using **Spring Boot**, **React**, and **MySQL**, including role-based dashboards, booking calendar features, and reservation management screens.

### C++/Qt Logging and Database Manager

- Built a desktop application integrated with **PostgreSQL** for event logging, debugging, error tracking, and system monitoring.

## EDUCATION

### Kadir Has University

B.Sc. in Computer Engineering

2021 – 2026

Istanbul, Turkey

## SKILLS

**Enterprise IT:** Active Directory, Office 365, Endpoint Central, ServiceDesk Plus, Domain Join, User Support

**Backend & Databases:** Spring Boot, ASP.NET Web API, PostgreSQL, MySQL, SQL

**Programming:** Java, C#, Python, C/C++, JavaScript

**Frontend & Tools:** React, JavaFX, Qt, Power BI, Robusta RPA, GitHub, Matlab/Simulink

**Certificates:** AI & ML Algorithms – Microsoft, Deep Learning – Illinois Tech, Project Management Internship – TNC Group

**Languages:** Turkish – Native, English – B2
